

To allow Sinclair Broadcasting to attempt to sway an election by their decision to air a strong Anti-Kerry program (which has been demonstrably false in many of its allegations) is to allow friends of the current Republican administration to support "stealing" the presidency once more.

News is supposed to be balanced! Even as an amateur radio operator (since 1963) I know we are not supposed to abuse our privilege as amateurs by promoting politics and social policy on the air.

Can we expect anything less of large media corporations which have such an opportunity to sway the minds of voters and present something "as if" it were true, unpropagandizing news?

Please prevent the airing of this inappropriate program, "Stolen Honor" or at the very least, require Sinclair Broadcasting to also show "Going Upriver" without apology or editorial comment.

Yours sincerely,

Rev. Bob Thaden
